ENYI OKEREKE

Enyi Okereke was an Associate Professor of Orthopedic Surgery, Chief of the Foot and Ankle Service at the University of Pennsylvania Medical Center, Vice President of the Philadelphia Orthopedic Society. Enyi was a blessing to many, a humble person, a true gentleman, an admirable and effective leader of men and women.

Enyi's philanthropic work included; mentoring programs in both USA and Nigeria, medical missions to Nigeria culminating in his involvement with the Association of Nigerian Physicians in the Americas (ANPA) and providing free surgery for indigent Nigerians. His passion for ANPAs mission and its potential led Enyi to dedicate much of his professional time in developing programs to enhance healthcare delivery in Nigeria. At the time of his heart attack and sudden death, Enyi was in a remote area of Nigeria with an ANPA orthopedic team, training Nigerian surgeons in specialized arthroscopic surgery techniques. Ironically, the lack of basic cardiac equipment and medication was a key factor in his premature death during his sabbatical mission in Nigeria where he became a victim of the inadequate healthcare system he was very committed to improving.

ENYI MD Foundation programs includes; partnership with ANPA USA to provide training programs for first responders in Nigeria, provision of fully equipped Ambulances for first responders. Please help us to raise money to improve emergency medical services in Nigeria so more lives will not be cut short due to inadequate healthcare.

The Enyi MD foundation is a tax-exempt non-profit organization committed to improving the Healthcare system in Nigeria.
